

It's Good To Be Back ('Round Here Again)

Flatland Cavalry

Big Stick Timber stretches me towards the sky
The mountain's mine and emotion that I'm proud to feel alive
She'll be coming around the mountain like an old familiar friend
The feeling that it's good to be back 'round here again

It's good to be back 'round here again
Chasing the sunshine, riding the wind
I tip my hat to the time I get to spend
'Round here again

My eyes are opened, turned towards the light
No longer searching the shadows that have robbed me of my sight
I smile towards a good time up around the bend
It's good to be back 'round here again

It's good to be back round here again
Chasing the sunshine, riding the wind
I tip my hat to the time I get to spend
'Round here again

My heart has made its mind to roam
But I know one day this road I'm on will lead me back home

I warm my coat around a drum barrel fire
Clear my throat with a carol like a songbird on a wire
The times, all the places, all the strangers we've been
It's good to be back 'round here again

Chasing the sunshine, riding the wind
I tip my hat to the time I get to spend
'Round here
It's good to be back 'round here again
Chasing the sunshine, riding the wind
I tip my hat to the time I get to spend
'Round here again
