

## Let It Roll

Flatland Cavalry

Throw a shower cap over a smoke alarm  
Pull the shades, turn the music on  
Close your eyes, baby, take my hand  
Let's dance, give me a chance  
To blow your mind  
No, it won't take long

Just let go and lose control  
If it does good to your soul  
It ain't right being uptight  
So, darlin', let up your fight  
Sometimes you gotta let it roll  
Spin it around

Spin that bottle 'til the sun comes up  
Sippin' wine in a paper cup  
Pass that guitar 'round and 'round  
Wanna hear that gypsy sound  
And don't you stop until I've had enough

Just let go and lose control  
If it does good to your soul  
It ain't right being uptight  
So, darlin', let up your fight  
Sometimes you gotta let it roll  
Oh, it won't take long

So pick up those dice  
Why not give it a try?  
How will you ever know?

Just let go and lose control  
If it does good to your soul  
It ain't right being uptight  
So, darlin', let up your fight  
Sometimes you gotta let it roll

It ain't right being uptight  
So, darlin', let up your fight  
Sometimes you gotta let it roll
