

## New American Dream

Flatland Cavalry

Rat race runnin' on a pharmacy speed  
Wheelin' and dealin' on legalized weed  
And I ain't got a cotton dollar in my pocket  
But I'm wearin' designer jeans and luxury optics

Wake up to the new American dream  
Watch the old one fade on a five-inch screen  
It's another Great Depression tryin' to keep up with the Jetson  
s  
Wake up to the new American dream

Hop on the Metaverse and hit the club  
Go home with an avatar and fall in love  
When the children start askin' how we met  
Hell, we'll tell them "We just swiped right til' there was no o  
ne left."

Wake up to the new American dream  
Watch the old one fade on a five-inch screen  
It's another Great Depression tryin' to keep up with the Jetson  
s  
Wake up to the new American dream

Pray the Lord your crypto coins to keep  
Put your conscience and your common sense to sleep

You book a shuttle  
To the lit side of the moon  
You play 18 at TPC "Lunar Dunes"  
You'll be halfway to heaven  
If you don't come back  
You can stay there forever  
They got a pill for that!

Wake up to the new American dream  
Watch the old one fade on a five-inch screen  
It's everyone's profession tryin' to keep up with the Jetsons  
Wake up to the new American dream  
Wake up to the new American dream
