

Stompin' Grounds

Flatland Cavalry

Tired of breathing in all this office air
Need to get back home feel the sand in my hair

But when the sun goes down
I'll come back around
If you wanna find me in that old town

I'll be out in the backyard with the porch light on
Sipping on a Shiner
All my friends in the background passing round a guitar
Or around a bonfire
Drink the night away while the radio plays some old Charlie Daniels s
ong
Oh, you can find me there

Yeah, this damn bar... still smells the same
Still filled with the same damn creatures
Who will never change

But when the sun goes down
I'll come back around
If you wanna find me in my hometown

I'll be out at the dancehall with the bar lights on
Sipping on a Shiner
Old flame in the background staring me down
She know I don't mind her!
Drink the night away
While the DJ plays some old Waylon Jennings song
Oh, you can find me there
You can find me there

Then someday, I'll move on
When I do, put on your boots, dance on my headstone
Bring a bottle of Tennessee for two
I'll be pushin' up daisies, just for you
And you can find me there
You can find me there
You can find me there
I ain't goin' nowhere
And when the sun goes down
I'll come back around
You and I will be two-steppin' there at our old stompin' grounds
Our old stompin' grounds
Our old stompin' grounds, yeah!
Go on, girl
