

## The Best Days

Flatland Cavalry

We're all looking for an answer  
Just ramblin' on  
Gone blind from all the darkest days  
Still tryin' to find a home  
Sit back and take it easy  
There's always another hill to climb  
From the top of every mountain  
All I've come to find

Is the stars go on forever like a billion fireflies  
We're glowin' dust just burnin' out  
Lucky to be alive  
Wake up to the moment and let your big heart shine  
Better go on, get to livin'  
The best days of your life

No tip-toin' 'round the deep end  
Yell, "Cannonball"  
Jump in like there's no tomorrow  
Drink it up until last call  
And don't fear a rising water  
It's only a high tide  
Search the break for a better wave  
And just enjoy the ride

'Cause the stars go on forever like a billion fireflies  
We're glowin' dust just burnin' out  
Lucky to be alive  
Wake up to the moment and let your big heart shine  
Better go on, get to livin'  
The best days of your life

'Cause the stars go on forever like a billion fireflies  
We're glowin' dust just burnin' out  
Lucky to be alive  
Wake up to the moment and let your big heart shine  
Better go on, get to livin'  
The best days of your life

Better go on, get to livin'  
The best days of your life
