

# The Provider

Flatland Cavalry

It's five on a Friday, play some Jones  
Got that weekend feeling in my bones  
Cowboy killer smokin' in my hand  
Submarine sammich in a can  
I'm a double-shift, smoke a spliff, up-all-nighter  
Got everything I need  
I'm a provider

Fifty-hour weeks put my life on the line  
Workin' on a farm, hangin' wind turbines  
Been bustin' my ass, but come Saturday night  
Well, I'll have my steel toes shinnin' under neon lights  
How'd you think your future looks a little brighter?  
It's me up on a tower, man  
I'm a provider

I turn it up  
I crank it loud  
I ride or die  
Put the pedal down, yeah

Got my '83 GMC blowin' double stacks  
Rollin' to the house, just crossed the tracks  
Put your face on babe, let's set the night on fire  
In that little summer dress we're gonna smoke the tires  
Gonna get wilder than a pumpjack rider  
Give you what you need, baby  
I'm a provider

I turn it up  
I crank it loud  
I ride or die  
And put the pedal down, yeah

You got everything you need  
Fill me up with desire  
I give you all my love, baby  
I'm a provider
