

# Heal

## Flaw

I've contemplated something  
Broke down so many times  
Hit by the awful feelings  
Captured by all the lies

Now I'm praying for a change of pace  
And I've been waiting for the day to come  
Locked up in silence and this rat race  
I can't believe that I'm the only one

Cause all we know is the pain we feel  
It helps us grow, makes this life real  
But deep inside those wounds will heal  
All those wounds will heal

Still tied up by the grieving  
These wounds they cut so deep  
Can't seem to fight the feelings  
I cry myself to sleep

I'm reaching forward to a better day  
And all the negative inside of me  
There has to be some kind of better way  
Another life is what I go and seek?

'Cause all we know is the pain we feel  
It helps us grow, makes this life real  
But deep inside those wounds will heal

Hold your faith  
Hold your faith  
'Til it's right  
'Til it's right  
So you're saved  
So you're saved  
In the light  
In the light

Hold your faith 'til it's right  
So you're saved in the light  
By our hands we creep  
All your scars disappear, oh

Cause all we know is the pain we feel  
It helps us grow, makes this life real  
There comes a time to break the seal  
Cause deep inside those wounds will heal  
Deep inside all those wounds will heal

All those wounds will heal  
All of your wounds will heal  
All of your wounds will heal
