

Keep Me Behind

Flaw

I can't stand, to lose control
Can't understand, where I could not go
And I'd swear, there's an emptiness
That hides the other mentally
And I'll need, to be a little close
And I'll feel, there's an empty source
To be up here, right beside this push
I know there isn't any other

Hold me down, not what we're looking for
I'm gonna carry mine, when I go through the door
I'm looking back now, but you were not there
Maybe your whisper wouldn't care?
But I'm a man at least, that you wouldn't lose
You tried to take it all out, but you could not see
Now my mind, is wasteful because of you

And that's why I've been losing my mind
And I don't have the time
To let these problems keep me behind
Been losing my mind
And I don't have the time
To let these problems keep me behind

Am I to believe in this? Am I to believe in that?
Are you gone, are you there, can I really have that?
Are you to tell me lies, am I to sacrifice
The very nature of what I stand for?
For even I, have bound my mind
Around your things, allowed in this
To come and guess, and realize
All your answers are in vain now

Hold me down, not what we're looking for
I'm like I'm packing my mind, through the door
Just believe in those, by the line you see
I wouldn't listen to a word you said
I'm looking over and over, about the way I feel
Maybe this life, made us suit unreal
I gotta buy my way, second to safe
This is us you prison

That's why I've been losing my mind
And I don't have the time
To let these problems keep me behind
Been losing my mind
And I don't have the time
To let these problems keep me behind

I've gotta kill these problems
The only thing that matters to me, is how I'm gonna be
You know music helps me that way
The only things that's ever helped me that way
That's music, it keeps me alive
Stay alive, try to stay alive each day
Stay calm. Wake up and stay alive
Now

Stay alive

Keep them behind, keep them behind, keep them behind

Keep me behind, with music
