

Nothing Else

Flaw

Open the drain waiting for change
We open the door for all the strains, we're all really deranged
To think that our existence here is bigger picture
That we're drawn to

Coming to terms with the burns and lessons learned
About the things we should have understood
Too late to fix the wrecks around the sticks[?]
We make it our hobby

Don't be down
What's your purpose?
You'll find out
When it's time

I believe in myself, nothing else
I believe in myself, nothing else
I believe in myself, nothing else
I believe in myself

Severe the ties, believe the lies, circumcised
The reason to try is never behind
The answer is amazing us unable to trust
The one thing we're pulled to

After the fall, you put up a wall, becoming a pawn
Searching it all, you couldn't believe I'm able to see
What you couldn't read in front of me
I might have killed you

Don't be down
What's your purpose?
You'll find out
When it's time

I believe in myself, nothing else
I believe in myself, nothing else
I believe in myself, nothing else
I believe in myself

Find your own way
(Find your own way)

I'm going to find my own fucking way out
I'm going to find my own way out
I will, I will

I'll do fine by myself
I'll do fine by myself
I'll do fine by myself
I'll do fine by myself
