

One Step At A Time

Flaw

Taking chances with my life,
making changes when it's right
Being sure I'm alive inside,
this is how I know I'm all right
Lessons learned here, fill my thoughts
Rediscovered all I've lost
Will you help me work things out?
Figure out what this life's about

I've learned to take this life as it comes,
one step at a time.
There's no reason to doubt ourselves,
take it one step at a time.

You'll have to find me, what is missing
Let me know if you still you care
I just need to stand the offer
Let me know when you need me there

I've learned to take this life as it comes,
one step at a time.
There's no reason to doubt ourselves,
take it one step at a time.

Being honest with yourself,
Making promises and have it dealt
Bring it towards [?] mental health,
changing the way we should have felt

Taking chances with my life,
making changes when it's right
Being sure I'm alive inside,
this is how I know I'm all right

I've learned to take this life as it comes,
one step at a time.
There's no reason to doubt ourselves,
take it one step at a time.

One step at a time...
One step at a time...
One step at a time...
One step at a time...
