

# I've Been Down

Flea

I tumble into space  
Try to stop the fall  
My body ripped and tore  
I could have floated in space

Could have floated

I stumble 'round my home  
I am on the outside  
My legs and arms are lead  
Feeling love from no one

Could have floated

My head weighs ninety pounds and I've been down  
My friends are aliens and I've been down

Well now, I've got no wife  
Cut a lizard's tail, it grows back to life  
I killed some sleepless nights  
My heart's torn to pieces

Could have floated

I am the funny guy  
Yeah, I've been down  
I am the big rock star  
Yeah, I've been down

I'll never be the same 'cause I've been inside out  
And I wanna be an animal and take care of my own

My head weighs ninety pounds and I've been down  
My friends are aliens and I've been down

I know what it's like 'cause I've been down  
Devil sneaks in and deals and I've been down
