

Can't Believe You Wanna Leave

Fleetwood Mac

I can't believe you wanna leave
When you know that it'll hurt me so
Down on bended knee
Begging please not to go

Think of all the love we've shared
And all the fun we had
And now you wanna leave
Don't you know that, that'll drive me mad?

My love, my heart
My love is in your hand
And now you wanna leave me
You wanna leave me for another man

Think of all the love we've shared
And all the fun we had
And now you wanna leave
Don't you know that, that'll drive me mad?

Think of all the love we've shared
And all the fun we had
And now you wanna leave
Don't you know that, that'll drive me mad?
