

I Held My Baby Last Night

Fleetwood Mac

Last Night

I lost the best friend I ever had

Last Night

I lost the best friend I ever had

You know she gone, she gone and left me

That made me feel, feel so bad

Now it's early in the morning

And my love is comin' down for you

Early in the morning

And my love is comin' down for you

I want you to tell me, tell me, tell me baby, now

What in the world are we gonna do

If she don't come back

I don't know what I'm gonna just do

If she don't never come back

I don't know what in the world I'm gonna do

'Cause she's gone and left me

Left me to see the whole night through
