I wake up With my eyes shut tight Hoping tomorrow will never come For you and I

Oh the phantoms Crawl out of the night Hoping the daylight will never come For you and I

Keep your heart open and your eyes shut tight What will be, will be
Keep your heart open and your eyes shut tight
But don't forget about me

Oh the phantoms Crawl out of the night Hoping tomorrow will never come For you and I

Keep your heart open and your eyes shut tight What will be, will be
Keep your heart open and your eyes shut tight
But don't forget about me

I wake up
With my eyes shut tight
Hoping tomorrow will never come
For you and I
Hoping tomorrow will never come
For you and I
For you and I
For you and I
For you and I
