

# Fight For My Love

FLEMMING

I was one step closer  
Now I'm four steps ahead  
Cause I know much more now  
Since you left me for dead  
And you said I'm sorry  
But I know you'll do it again, ooh

You don't want to leave me  
And I want you by my side  
But you have to trust me  
Even though I lied  
And I said I'm sorry  
But you think I'll do it again, ooh

If we want this to work  
We've got to make it right  
And keep this alive

Fight till the morning comes  
And when the day's done  
We'll be the stronger ones  
Ooh come on baby  
We'll give it another shot  
... Just hold me tight  
And look in my eyes  
Give it another try  
Ooh come on girl

Fight for my love again

Fight for my love again

And I'll fight for your love again

Ooh here we go now  
The music slows down  
We're still rushing and rushing and rushing  
We keep crushing and crushing and crushing

If we want this to work  
We've got to make it right  
And keep this alive

Fight till the morning comes  
And when the day's done  
We'll be the stronger ones  
Ooh come on baby  
We'll give it another shot  
Just hold me tight  
And look in my eyes  
Give it another try  
Ooh come on girl

Fight till the morning comes  
And when the day's done  
We'll be the stronger ones  
Ooh come on baby

We'll give it another shot  
Just hold me tight  
And look in my eyes  
Give it another try  
Ooh come on girl

Yeah, we just fight till the morning comes  
And when the day's done  
We'll be the stronger ones  
Ooh come on baby  
We'll give it another shot  
Just hold me tight  
And look in my eyes  
Give it another try  
Ooh come on girl

Fight for my love again

Fight for my love again

And I'll fight for your love again
