

Suffer the Dead

Fleshcrawl

I embrace the night
While dreaming of the dead
Deliver me from light
To enter the other side

Mortals now immortal
Conquer the realm of death
To end the curse of life
And choke the human's breath

Suffer the dead
Open the graves
Rot and decay

Demons to rise
Feasting on me
Suffer the dead

Sacrificial rites
My flesh will now transform
And souls emerge to feed their ghosts
In this nocturnal storm

Desecrated hallowed throne
Of rituals unknown
I'll become one of their own
The king of rotten scum

Suffer the dead
Open the graves
Rot and decay

Downfall and decay
Your affinity to rot
The prey is left to pray
My world's none of your gods'
