

Avalanche

Fletcher

You always find the exit sign in a crowded room
Everybody wants their shot, but you're bulletproof
Don't like the feeling when your arms unfold
A fire's burning, but your cave has gone cold
And you know you can't stay here forever

So you're scared, you don't think you're ready yet
We'll take it slow, I'll walk with you on the edge
Paint the colors on top of the sunset
I can do this all for you

So give me one night, one minute
And I'll watch you fall like an avalanche
Let your walls down, I swear you won't regret it
Hold on tight, baby, if you can
We'll be rolling fast, and crashing hard
Hear the mountains roar to the beat of our hearts
And we'll be falling like an avalanche
And we'll be falling like an avalanche

Staring at the waves, but you don't wanna drown again
Wish that you could feel the water come pouring in
The blood is rushing, but you're paralyzed
Defenseless, but you feel so alive
I think that you can love me forever

So you're scared, you don't think you're ready yet
We'll take it slow, I'll walk with you on the edge
Paint the colors on top of the sunset
I can do this all for you

So give me one night, one minute
And I'll watch you fall like an avalanche
Let your walls down, I swear you won't regret it
Hold on tight, baby, if you can
We'll be rolling fast, and crashing hard
Hear the mountains roar to the beat of our hearts
And we'll be falling like an avalanche
And we'll be falling like an avalanche
Like an avalanche
Like an avalanche

Go ahead and close your eyes
The thunder will pass us by
It's beautiful to fall apart
Oh the storm is gonna break when we start
Go ahead and close your eyes
Listen 'til the wind goes silent
We can let our hearts run free
Baby you can have a life with me
Everybody wants their shot, but you're bulletproof

So give me one night, one minute
And I'll watch you fall like an avalanche
Let your walls down, I swear you won't regret it
Hold on tight, baby, if you can
We'll be rolling fast, and crashing hard

Hear the mountains roar to the beat of our hearts
And we'll be falling like an avalanche
And we'll be falling like an avalanche
We'll be falling, we'll be falling like an avalanche
We'll be falling, we'll be falling like an avalanche
