

Bleeding  
First time we cut was the deepest  
Miss all the lies and the secrets  
Crave it, need it, I'm  
Floating  
Best when I'm lost in your ocean  
I'm wet from all the emotion  
So deep, oh shit

Call it quits  
Pull the tourniquet  
I'm a masochist  
Rip out my guts

Won't you crush me  
Under the weight of your body?  
You know I put you above me  
I wanna cry when you fuck me  
I want your kisses to cut me  
Come on, I dare you to love me  
Wondering why won't you crush me?  
Won't you crush me?

It's a circuit  
Looping around like a circus  
Push me around  
Put your tongue in my mouth  
Take me back to the ground  
Baby, I ain't no virgin, ah

I'm not really one that'll play it down  
You're the only one that I think about  
Mm  
I see heaven when you

Crush me  
Under the weight of your body  
You know I put you above me  
I wanna cry when you fuck me  
I want your kisses to cut me  
Come on, I dare you to love me  
Wondering why won't you crush me?  
Won't you crush me?  
Ah

Part of me wants forever  
Your hard-wired in my brain  
Part of me knows better  
Maybe I'll listen someday  
Part of me wants forever  
Your hard-wired in my brain  
But part of me knows letting you go will  
Crush me  
Crush me
