# Feel

**Fletcher**

I remember that time when you took my hand
Looked into my eyes said, "I got you, darling"
Shivers up my spine and down my back
Summersaults inside my stomach

You let the sparks fly high into the night and I tried to hold 'em
I'm reeling in the ash and smoke 'cause you came and broke my h eart wide open

So I'll drink this wine
Like it's medicine for the mind
Onto my tongue
Oh, 'cause I still taste your love
All in my bones
Head to my toes
Doing time tryna heal
Do anything so I don't feel you

I used to hate the cigarette taste
But when I'm all in I can't help but want it
I hit and miss you on my lips
So I numb your kiss with a gin and tonic

So I'll drink this wine
Like it's medicine for the mind
Onto my tongue
Oh, 'cause I still taste your love
All in my bones
Head to my toes
Doing time tryna heal
Do anything so I don't feel you

Now I'm lying here awake just staring at the ceiling fan
Spinning 'round in circles all over again

So I'll drink this wine
Like it's medicine for the mind
Onto my tongue
Oh, 'cause I still taste your love
All in my bones
Head to my toes
Doing time tryna heal
Do anything so I don't feel you
Feel you, feel you
