

# If I Hated You

Fletcher

If I hated you I know that  
I could do this on my own, own  
If you weren't so good to me then  
I could change the background of my phone, phone

You know I dream about  
Getting back together in the future  
I could focus on you, focus on you  
But if I leave right now  
I hope that you don't find someone  
That touches you the way that I do, the way that I do

My bedtime is the darkest  
That's when I'm brokenhearted  
The nighttime is the hardest  
It'd be easy if I hated you  
I'd leave the after-party  
I wouldn't miss your body  
The nighttime is the hardest  
It'd be easy if I hated you  
If I hated you

Took an eyelash off my face, said  
"Make a wish" and I made three  
Wish I could've loved you better  
Wish you'd kiss me, wish I wasn't me, me

You know I dream about  
Getting back together in the future  
I could focus on you, focus on you  
But if I leave you now  
I hope that you don't find someone  
That touches you the way that I do, the way that I do

My bedtime is the darkest  
That's when I'm brokenhearted  
The nighttime is the hardest  
It'd be easy if I hated you  
I'd leave the after-party  
I wouldn't miss your body  
The nighttime is the hardest  
It'd be easy if I hated you  
If I hated you

I just wanna stay right here  
Lay right here  
Don't go nowhere  
Don't go  
Don't go  
And I just wanna love like that  
We know that we can't go there  
Can't go  
Can't go

My bedtime is the darkest  
That's when I'm brokenhearted  
The nighttime is the hardest

It'd be easy if I hated you  
I'd leave the after-party  
I wouldn't miss your body  
The nighttime is the hardest  
It'd be easy if I hated you  
If I hated you  
If I hated you
