

# Live Young Die Free

Fletcher

I don't want the same things I used to want anymore  
I know how to say what I could never say  
And what it means to have it my way  
I only wanna do it if it's something worth fighting for  
Don't think your money's gonna buy my time  
Well, who the hell wants to live a lie?

So watch me turn it up like this  
Make it loud 'til I feel it rumble like this  
Boom boom, you better make my heartbeat skip  
Won't stop until I make history  
I wanna live young, die free free free  
I wanna live young, die free free free  
And if you wanna be, be, be  
With somebody like me  
Well, we could live young, die free

I'm so sick and tired of being the one who plays it safe  
Ready to start it up and make it my show  
You can't be with me if you move slow  
I want it now; is it so far  
I don't wanna have to wait  
I like the rush; need to feel it on my skin  
If it's good, then do it again, yeah

So watch me turn it up like this  
Make it loud 'til I feel it rumble like this  
Boom boom, you better make my heartbeat skip  
Won't stop until I make history  
I wanna live young, die free free free  
I wanna live young, die free free free  
And if you wanna be, be, be  
With somebody like me  
Well, we could live young, die free

I'll stay here with no regrets  
Don't tell me what I want  
And if I'm gonna bet, I'm gonna bet it all  
Don't need your diamond rings  
Cause I can do anything  
We should do everything

So watch me turn it up like this  
Make it loud 'til I feel it rumble like this  
Boom boom, you better make my heartbeat skip  
Won't stop until I make history  
I wanna live young, die free free free  
I wanna live young, die free free free  
And if you wanna be, be, be  
With somebody like me  
Well, we could live young, die free free free  
Free free free  
And if you wanna be, be, be  
With somebody like me  
Well, we could live young, die free free free  
Oh, we could live young, die free free free  
And if you wanna be, be, be

With somebody like me  
Well, we could live young, die free free free  
Free free free
