

## Party

Fletcher

I know when you knock on my door  
You're waiting for the drama of  
The silhouette of who I was before  
I scattered it like star dust

Champagne bottles, they lose their luster  
When you leave them open for a little too long  
And if you came here searching for a ghost town lover  
To drink, dance, fuck and cry to the breakup songs

It's not that kind of party, it's not that kind of night  
I'm sorry I can't always be the time of your life  
I'd love to let you love me 'cause I'm that kind of whore  
Who needed the attention I don't need anymore  
It's not that kind of party

Girl, I could just rock on and roll  
Like a dog and pony show  
But that would be a lie, lie, lie you know  
Just to make you happy, so  
Keep the cake and the cheap confetti falling  
This celebration's been a little too long  
And if you came here searching for a good time, let me tell ya  
Tequila ain't the reason that I'm so far gone

It's not that kind of party, it's not that kind of night  
I'm sorry I can't always be the time of your life  
I'd love to let you love me 'cause I'm that kind of whore  
Who needed the attention I don't need anymore  
It's not that kind of party

I don't wanna lose you  
No, but I don't wanna lose me  
I don't wanna lose me  
I don't wanna lose you  
No, but I don't wanna lose me  
No, I don't wanna lose me

It's not that kind of party, it's not that kind of world  
I used to be, but now I'm just not that kind of girl  
I'd love to let you love me 'cause I'm that kind of whore  
Who needed the attention I don't need anymore  
It's not that kind of party
