The One

Fletcher

Last night I had a dirty dream about you, baby
I'm just thinking maybe we should make it real
Turn off, sip on some kinda cheap tequila
Leave the baggage, leave the madness leave the way we feel

I wanna bite your lips
Do some freaky shit
I could picture it
Like I'm seeing twenty twenty
Even if it's temporary

You're not the one
But you're the one right now
You're not the one
But you could be the one right now

I'm having fun
I'm having fun right now
You're not the one
But you could be the one right now

(You're not the one)

I don't really need nobody
I just kinda want your body
My life's a mess but it's hot
So you won't be sorry
And we don't need to fake it
'Cause we don't need to make it
I don't care if we make it, no no

I just wanna bite your lips
Do some freaky shit
I could picture it
Like I'm seeing twenty twenty
Even if it's temporary

You're not the one
But you're the one right now
You're not the one
But you could be the one right now

I'm having fun
I'm having fun right now
You're not the one
But you could be the one right now

Ooh, if you touch like that
I'ma touch back, I'ma touch like that, like ooh
Like ooh
Ooh, if you touch like that
I'ma touch back, I'ma touch like that, like ooh
Like ooh

You're not the one
But you're the one right now
You're not the one

But you could be the one right now

You're not the one
But you're the one right now
You're not the one
But you could be the one right now

I'm having fun
I'm having fun right now
You're not the one
But you could be the one right now

You could be the one right now
You could be the one right now
You're not the one
But you're the one right now
You could be the one right now
You could be the one right now
