

Blue Ribbons

Fleurie

I lace my fingers with blue ribbons in the sea
Somebody tell me, when did the water get so deep?
Cause I can't decide if this is real or make believe, sing it l
ouder
Colours chasing me like vertigo tonight and every dream
Oh my heart, believe, it's nowhere left in sight
Is this the darkness? You're supposed to be the light
Shining brighter

Cause I can see clearly, when you're beside me
I can see clearly, when you're around me
You are beside me

And night blows the covers over canyons underground
And all of my hoping turns to trying and I can't figure this ou
t
Would you remind me how to dream it all out loud
Hold me tighter

Cause I can see clearly, when you're beside me
I can see clearly, when you're around me
I can see clearly, when you're beside me
I can see clearly, when you're around me
You are beside me, you are beside me
You are beside me, you are beside me
