

Odyssey

Fleurie

Left all my stuff on the floor
Poured out to find you're what I was dreaming so long for
When I can say your name loud
I'll be the place you can lay it all down

And we're carving our names into hallway floorboards
We won't stay the same but we won't forget what we came for
Floating through time

Floating through time
Through the air, through these rhymes
Slow drifting through walls like pages
And every day that you're mine
I am floating through time
Floating through time, floating through time
And every day that you're mine
I am floating through time
