

All Your Love

Flight Facilities

Rewind to find you
Caught by a low moon
Wide eyes bright blue
In high tide and cold water
With my heart in your hands
With my heart in your hands
With my heart in your hands
Don't let go
With my heart in your hands

All your love it keeps me safe
All your love completes me
All your love it makes me stay
You're the love I needed

The fine lines drew you
Now see right and see through
To wide eyes bright blue
In high tide and cold water
With my heart in your hands
Don't let go
With my heart in your hands

All your love it keeps me safe
All your love completes me
All your love it makes me stay
You're the love I needed

All your love it keeps me safe
All your love completes me
All your love it makes me stay
You're the love I needed

All your love it keeps me safe
All your love completes me
All your love it makes me stay
You're the love I needed

With my heart in your hands
Don't let go
With my heart in your hands
With my heart in your hands
Don't let go
With my heart in your hands
