Heart Attack

Flight Facilities

How far out have I got to move?
Oh I've got to get next to you
But you're so far away
Searching for a heart another world away

You're all I need and now if you knew
I can't operate without you
No I can never live another day
Fallin' to the floor
You're my heart attack

Heart attack, heart attack, heart attack
Baby, you're my heart attack
Heart attack, heart attack
Baby

Lines on your face
Tell the stories of the burdens you bear
Could you go there again?
And though I'm longing for your embrace
It's still a feeling that I wish I could end
Now I feel like I'm crazy

How far out have I got to move?
Oh I've got to get next to you
But you're so far away
Searching for a heart another world away

You're all I need and now if you knew
I can't operate without you
No I can't never live another day
Fallin' to the floor
You're my heart attack

Heart attack, heart attack, heart attack
Baby, you're my heart attack
Heart attack, heart attack
Baby, you're my heart attack

[Repeat]
