

Intro

Flight Facilities

Welcome aboard, ladies and gentlemen.
Today's flight will be a little over one hour.
Just a few safety precautions before we head off:
We ask that you do move about the cabin as much as possible;
be sure to loosen those belts;
and remember,
all our flights are fitted with smoke detectors, so do try not
to get caught.
We'll be dimming the cabin lights for take-off.
Thank you for choosing to fly with Flight Facilities.
