## Flight Facilities

You're running on star power  
I ran down the same way too many times  
I'm coming up short now  
Waning returns on the camera time  
But listen baby

I, I know  
I can't keep loving when you give nothing  
And I, I know  
I can't keep coming when you're still running away  
Oh won't you please stay?

This ain't a new thing  
It's cute that you think this time it's different babe  
But just like the last time, I'll be here  
Waiting to show you how good it feels

And I, I know  
I can't keep loving when you give nothing  
And I, I know  
I can't keep coming when you're still running away  
Oh, won't you please stay with me baby?

Can't keeping running this time

(Can't keeping running this, I  
Can't keeping running this  
Can't keeping running this, I  
Can't keeping running this  
Can't keeping running this, I  
Can't keeping running this  
Can't keeping running this, I  
Can't keeping running this)

I, I know  
I can't keep loving when you give nothing  
And I, know  
I can't keep coming when you're still running away  
Oh, won't you please stay?  
Oh, won't you please stay with me baby?  
Oh, won't you please stay?  
When you're still running away  
(Stay)

(Can't keeping running, can't keeping running, can't keeping running  
like this  
Can't keeping running, can't keeping running, can't keeping running like this  
Can't keeping running, can't keeping running, can't keeping running like this  
Can't keeping running, can't keeping running, can't keeping running like this  
Can't keeping running, can't keeping running, can't keeping running like this)
