Ayy

Ever since I was a young nigga, I spazzed out
Even when I was a youngin', always went through mad doubt
Ayy (Yeah), ayy (Go dummy Kyle)

Ever since I was a young nigga, I spazzed out
Even when I was a youngin', always went through mad doubt
Always went and tell my mama how I move, I stand out
Only in it for the commas, I don't need no handouts
Ever since I was a young nigga, I spazzed out
Even since I was a youngin', always went through mad doubt
Always went and tell my mama how I move, I stand out
Only in it for the commas, I don't need no handouts, ayy, ayy

Take some time to deal with all this pain
You get caught up in the streets, it's like you caught up in this game
Know some niggas that'll die, you drain 'em of this life for fame
My lil' partner goin' crazy, he got drugs up in his brain
Man, this life is just so different, how our problems be the same
I just find it hard to smile, them niggas really know my name
Prophecies I'm really livin' make a nigga go insane
Got these trials and tribulations, I be facin' all this pain

I got visions of this money, that shit's caught up in my brain
Visions that they really love me, keep the choppa, can't complain
When they plan out your demise, that's when you give 'em what has changed
Rest in peace to all them niggas, I can't switch up what I'm sayin' (Uh, ayy
)

Young nigga, I spazzed out
Even when I was a youngin', always went through mad doubt
Always went and tell my mama how I move, I stand out
Only in it for the commas, I don't need no handouts
Ever since I was a young nigga, I spazzed out
Even since I was a youngin', always went through mad doubt
Always went and tell my mama how I move, I stand out
Only in it for the commas, I don't need no handouts (Ayy)

Effort through the struggles, I was blessed to persevere
From the start and to the finish, I won't tell my time is near
Always told to keep it solid with my brothers, them that's here
I got mama and my brothers, father's really close to here
I won't take my steps to life and walk a balance that is near
I was brought up in this life to raise that muscle from the fear
I rock foreign stitchin' on me when I'm hoppin out the leer
I got diamonds in my teeth so when I speak, you see me clear

You can't tell me 'bout this pain from all this rap and all this doubt
All these niggas steady watchin', man, these niggas out for clout
Couple thousand in my pocket, my whole team will air it out
This was nothin' but a dream, my niggas livin' better now (Ayy, ayy)

Young nigga, I spazzed out
Even when I was a youngin', always went through mad doubt
