

Loving what we lost, see, tryna find it pronto
Rolling dope I'm frosty, roll it up with frontal
She a fine thing from outta Cali

She a fine thing she out from Cali bastards
She got her problems and she know she lookin' tragic
Problems causin' problems and she said it's cause my habits
While I'm out here grinding for the mills I gotta have it
Loving what we lost, see, tryna find it pronto
Rolling dope I'm frosty, roll it up with frontal
Tell me that you cost me, I don't know what's up though
Saying that you love me, you lost me

It's loving that you claim what's up
It's loving that you claim what's up
It's loving that you claim what's up
It's loving that you claim what's up
It's loving that you claim a-

Caught up all in finer things, caught up all in life it bangs
She just want designer things, she just want the diamond ring
How you mixin' joy with pain, play her I don't play no games
Hate me but you love my name, hate me but you say my name
How you really saying that you trust me, you love me?
Why you always saying that I'm lucky you love me?
I don't wanna change up how we feelin'
But you gon' make me change up how we livin'
I just wanna, I just wanna live it like it's balling
Instead I got you wild if I don't pick up if you calling
'Stead I got you wild at how I get it cause we falling
If I misunderstood it, I don't give a fuck to solve it
I just wanna, I just wanna live it like a promise
I'm like what got into you, you holding up my conscience
I'm like what got up in to you, my heart itself a hostage
Leaving, guess we done it's through it's time to start the process

It's loving that you claim what's up
It's loving that you claim what's up
It's loving that you claim what's up
It's loving that you claim a-
It's loving that you claim a-
You know
You know
You know
It's loving that you claim a-
