

# A Change

Flipsyde

If it wasn't for my pain  
Then I wouldn't know my strength  
If it wasn't for my future  
I won't be fighting here today

And of course, I know my way up  
Cause I fell the same way down  
What matters is what you do  
When the troubles come around

Take a step now  
Get up on your feet  
Gotta be brave  
No clouds above thee

Follow your heart  
And then you'll see  
There's always a way  
Hold on tight  
Tomorrow will bring  
Every key to every locked dream  
It ain't hard as it seems

Baby don't cry  
Things are bout to change  
Baby don't cry  
Things are bout to change  
And all the hurt and the tears  
Will be just history  
And all the doubts and the stress  
Will be just history  
And all the hurt and the tears  
Will be just history  
And all the doubts and the stress  
Will be just history

Your mind carries heavy weight  
And your knees are kinda weak  
You wanna run and fly away  
But you hurt the wound is deep

You feel like it's time to give up  
When your soul is cryin loud  
Nothing lasts forever  
You will find your way

Take a step now  
Get up on your feet  
Gotta be brave  
No clouds above thee

Follow your heart  
And then you'll see  
There's always a way  
Hold on tight  
Tomorrow will bring  
Every key to every locked dream

It ain't hard as it seems

I only wanna be a real man  
I already got a real plan  
I ain't gotta be rich  
I ain't gotta have wealth

I just do the best I can  
Cause the life of a child  
Innocent's worth more  
Than a ring and ya new jeans

Got love in my life  
And that's all that I need  
You believe and you succeed  
And through the pain and the hard times

We push on with our head high  
Each one reach one clothe one feed one  
Do it right now, its time

Things about to change  
Oh yes, we can  
Things about to change  
Yes yes we can

Things about to change  
Oh yes, we can  
Things about to change  
Yes yes we can

Things about to change  
Oh yes, we can  
Things about to change  
Yes yes we can
