

# Shine On Through

Flipsyde

I knew it from the moment I saw that look  
You gave away my love  
Now I'm rollin' on down the road  
We both lost our way  
Now I'm gonna climb up to the mountain top  
And claim my love from above  
I'm free to fly up away

Feel me when I say  
I hope this moment lasts a lifetime  
So open up your heart, listen to your truth that's comin'  
We all know there'll be some troubles  
But even when it storms, it's love that's gonna shine on through  
(Yeah) It's love (Come on) That's gonna shine on through

Alone in the zone, and contemplatin'  
Patient like Om, but tired of waitin'  
Travel on this road, you know I'm weary  
Wanna go home, but not really

And I ain't got a lot of friends or a lotta enemies  
Circle small enough that it don't weight me down mentally  
Got a couple problems, I don't really get 'em get to me  
Pour a glass of Hennessy, I can feel this energy  
I can see the better me as if he's standin' next to me  
And runnin' toward destiny while sharpenin' my weaponry  
Love over everything, blessings and abundance  
Prayin' that she let a river flow till it's flooded

Feel me when I say  
I hope this moment lasts a lifetime  
So open up your heart, listen to your truth that's comin'  
We all know there'll be some troubles  
But even when it storms, it's love that's gonna shine on through  
It's love that's gonna shine on through

Feel me when I say  
I hope this moment lasts a lifetime  
So open up your heart, listen to your truth that's comin'  
We all know there'll be some troubles  
But even when it storms, it's love that's gonna shine on through  
It's love that's gonna shine on through
