

## Did I Love You (Like I Promised To)

flipturn

Lovely, keep me company  
Well, give me love and nicotine  
Oh, I do believe you are killing me  
You're killing me

We have grown so damn old  
We were young just days ago  
When we'd fall in love each week  
When we had no words to speak

But did I hold you  
Like I'm supposed to do?  
Did I love you like I promised to?

Every morning I watched you put on your skin  
33 years and you're still having trouble with it  
But who was I?  
Oh, to think that I could stop the tide

But I'm still trying to know you  
Oh, I'm still trying  
Oh
