

Peggy's got a good pace  
A good pace  
Doesn't take long for the skies change  
She takes me to a nice place  
Where my face feels warm  
As the sun hits the window

Falling asleep in a lullaby  
Can't be here but you can't say goodbye  
But when I'm home and I can't close my eyes  
So into the night

Tripping through the timeline  
Making the Doves cry  
Yeah you say you're doing just fine  
Enjoying the joy ride

Peggy's got a V6, she's iconic  
It's ironic, she's supersonic  
Letting go of your lip  
What's your logic  
There's nothing dangerous when life is a day trip

If everyone is hallucinating  
Then who's left to call you crazy  
So tell all your friends you believe in heaven and then maybe see them again

Tripping through the timeline  
Making the Doves cry  
Yeah you say you're doing just fine  
Enjoying the joy ride
