flipturn

All you know  
Is that you got miles to go  
So take it in, don't take it slow  
For nothing

Well yesterday  
Love was in another state  
If you could, you'd make her wait  
But your baby waits  
For nothing

You've never changed your mind  
You've got too much pride  
Someone said they saw you  
And you were driving high  
But you don't care  
You ain't got healthcare  
And it ain't fair  
But it's alright

Honestly  
It's alright  
If you can't be free  
Better off with company  
Than nothing

You've never changed your mind  
You've got too much pride  
Someone said they saw you  
And you were driving high  
But you don't care  
You ain't got healthcare  
And it ain't fair  
But it's alright
