

Rodeo Clown

flipturn

MDMA made me love you more it's all just a chemical feeling
So don't take it so personal oh
My love's still got meaning

And I've been
Waiting
For you to figure that out

My intoxication
Doesn't mean, it didn't count

I've been feeling the weight of everything yeah babe I hold it
down
Floating into the same old empty I feel it now

I've been riding I've been rolling I've thrown my reputation ar
ound
And I'm not a man with too many enemies
I'm just the rodeo clown

And you've been
Waiting
For me to figure that out

Acting on emotion
Getting off
Getting down

I've been feeling the weight of everything yeah babe I hold it
down
Floating into the same old empty I feel it now
I've been giving away my comedy I've been playing the crowd
Floating into the same ol empty I feel it now

I think I feel it now

I've been feeling the weight of everything yeah babe I hold it
down
Floating into the same old empty I feel it now
I've been giving away my comedy I've been playing the crowd
Floating into the same ol empty I feel it now
