

## Concentrate

Floater

Concentrate. The room starts spinning around me  
The lights behind my eyes are burning bright  
Is this fate? Or is this the way they'll find me with my spear  
in my side?

I have tried to see the light  
I gloried in the night  
I only know that I am alive  
I tried to see the way  
I gloried in the day  
Now I can only say that I am alive, alive, alive, alive

Concentrate. The world still goes in circles  
Will no one come and save me tonight?  
Am I too late? So helplessly I stand, with my head in my hands

I've tried to see the light  
I gloried in the night  
And I can only say that I'm alive  
I tried to see the way  
I gloried in the day  
And I can only say I am alive, alive, alive, alive

You know I've tried to see the light  
I gloried in the night  
And I can only say I am alive  
Oh I tried to see the way  
I gloried in the day  
And oh how I can say that I'm alive  
I'm alive
