

# Mosquito

Floater

Come my little mosquito  
And prove you are my love  
Preach to me your strange obsession  
Poised on a highway of blood

Highway of blood...

On a highway of blood

Yeah

Creeping up my staircase...  
Switching off all the lights  
Nobody can see us now  
Show me you can bite

Bite

You gotta try it  
To know what it's like  
As mosquito drives the spike  
I made a choice, God lost the fight  
And I don't hear him crying

Oh...

Don't hear him crying  
I don't hear God crying

Yeah

On wings it hears me calling  
Desirous of a sting  
Brings me the identity  
I came to this world missing

Yeah, missing...

Missing

I remember your father...  
But do you remember me?  
Did I leave a footprint  
In the dust of your memory?

Down in the dust?

You've gotta try it  
To know what it's like...  
As mosquito drives the spike  
And I made a choice, God lost the fight  
And I don't hear him crying

Yeah

An' I don't hear him crying

Yeah

Come my little mosquito  
And prove you are my friend  
I can't turn the lights back on...  
Is this how it ends?

Is this how it ends?

"Hey, baby..."  
"where you at?"  
"There you are..."  
"what the f\*ck'd you do?!"
