

Making Life Easier Since 1987

Flood Of Red

We heard the sound of sirens
We didn't think twice about it
We didn't think twice
You always ought to be careful out there
The waiting is what's worse
The waiting is what's worse
And I'm sorry
We didn't tell you about the world
And I'm sorry
We didn't tell you about the world

On the floor, well we (?)
We were scaring ourselves
With our minds (?)

We were hoping for, we were
A sensor light to track you down
We were hoping for, we were
A sensor light to track you down

To track you down

These are the kids we've grown up with (6x)

These are the kids we grew up with
These are the kids that are killing eachother (4x)
These are the kids we grew up with
These are the kids

We can't witness anymore
It's faster then to recycle all on your own, all on
your own
We couldn't witness anymore
The weathers terrible and I'm lost in the light

We will always keep dreaming...
