

Don't You Look At Me That Way

Flora Cash

Oh God, what a wild ride
Been the two of us a long time
Still wonder how we survived
How you didn't try to change me

But now lately I've been terrified
And I wonder why, am I going crazy?
You've been trying to help me live a lie
But it's in your eyes, you can't even face me

Don't you look at me that way
Like I'm fallen
Don't you look at me that way
Like I'm broken
Don't you look at me that way
Don't want your pity
Don't you look at me that way
Like you could save me

(Like you could save me
Like you could save me)

I remember it was so nice
Sitting looking at the sunrise
Said, "I'll love you till the sun dies"
Hope you know that's never changing

But now lately I don't recognize
Who am I inside, am I going crazy?
You're the only thing that got me by
But it's in your eyes, you don't wanna face me

Don't you look at me that way
Like I'm fallen
Don't you look at me that way
Like I'm broken
Don't you look at me that way
I don't want your pity
Don't you look at me that way
Like you could save me

(Like you could save me
Like you could save me
Save me)

Don't you look at me that way
Like I'm fallen
Don't you look at me that way
Like I'm broken
Don't you look at me that way
I don't want your pity
Don't you look at me that way
Like you could save me

(Like you could save me)
