

HOLY WATER

Flora Cash

Every sign led...
Led me right to you
I could feel you were lost out there...
Like I was tied to you

Every dead end
Every unintended
Lesson that I found
So cruel

When I found you
Flooded all around you
I was in a lifeboat too

It was like heaven sent
Like heaven sent
When I saw you

And the rain fell like holy water
My holy water
When I touched you

It was like an avalanche
That never ends...
Without you

You're like, my only one
The only one
And I found you

And I'd heard said
When it's right, you move
I was feeling you call out there
But I was blind to you

Every light up
Every little triumph
Lit a little light in you

When I found you
Glitter all around you
I was in the light then too

(Amen)

It was like heaven sent
Like heaven sent
When I saw you

And the rain fell like holy water
My holy water
When I touched you

It was like an avalanche
That never ends... without you

You're like, my only one

The only one
And I found you

When I found you
When I found you
