Strangeness and Charm

Florence + the Machine

Hydrogen in our veins, it cannot hold itself, my blood is boiling
And the pressure in our bodies, that echoes up above, it is exploding
And our particles that burn, it is all because they yearn for each other
And although we stick together, it seems that we are estranging one another

So, Feel it on me love
Feel it on me love
Feel it on me love
(Strangeness and Charm)

See it on me love
See it on me love
See it on me love
(Strangeness and Charm)

And atom to atom oh can you feel it on me love and
A pattern to pattern oh can you see it on me love
Atom to atom oh what's the matter with me love

Strangeness and Charm

The static from your arms, it is a catalyst
You're a chemical that burns, there is nothing like this
It's the purest element, but it's so volatile
An equation heaven sent, a drug for angels

Strangeness and Charm

Feel it on me love
Feel it on me love
Feel it on me love
(Strangeness and Charm)

See it on me love
See it on me love
See it on me love
(Strangeness and Charm)

And atom to atom oh can you feel it on me love and
A pattern to pattern oh can you see it on me love
Atom to atom oh what's the matter with me love

Strangeness and Charm

The static from your arms, it is a catalyst
You're a chemical that burns, there is nothing like this
It's the purest element, but it's so volatile
An equation heaven sent, a drug for angels

Strangeness and Charm
Yeahhhhh so, Jump
Strangeness and Charm

Strangeness and Charm

Strangeness and Charm

Strangeness and Charm

The static from your arms, it is a catalyst
You're a chemical that burns, there is nothing like this
It's the purest element, but it's so volatile
An equation heaven sent, a drug for angels

Feel it on me love
(Strangeness and Charm)
