

# Heatwave

## Florida Georgia Line

Baby girl I'm caught up in your heatwave

You're hot like the end of June  
It's not like you're gonna cool off soon  
The spotlight looks good on you  
It looks good on you  
Shadows hit you like a headdress  
Key to my heart on your necklace  
Between summer girl and that sundress  
I'm sweatin' and I'm reckless

Moondance in the starlight  
Got two hands on your hips tonight  
It's hot as hell but it's just right  
Let me drop a double shot in your crystal light  
Midnight sweat, cherokee skin  
Can't cool off, but I'm cool with it  
Love this love we're makin' baby even if it's rainin'  
Talk about a heatwave

Watch your body move to the beat babe  
Feels like we're havin' us a beach day  
Lightin' it up while your feet sway  
I'm caught up in your heatwave (girl so fine)  
Heatwave (girl so fine)  
Heatwave (girl so fine)  
Baby girl I'm caught up in your

Two piece in the water  
That's all me, I got her  
There's gonna be some lightnin' at the bottom of this bottle  
You gotta drawin' our names in the white sand  
Call it what it is, I'm the right man  
Meltin' ice on your right hand  
But I'ma put a rock on your left, baby

Moondance in the starlight  
Got two hands on your hips tonight  
It's hot as hell but it's just right  
Let me drop a double shot in your crystal light  
Midnight sweat, cherokee skin  
Can't cool off, but I'm cool with it  
Love this love we're makin' baby even if it's rainin'  
Talk about a heatwave

Burnin' up, baby you've got me burnin' up  
Move, don't stop, just turn it up  
Love it any way you serve it up  
Serve it up  
Burnin' up, baby you've got me burnin' up  
Move, don't stop, just turn it up  
Love it any way you serve it up  
Serve it up
