

## Garden

Florrie

I guess what they say is true  
Nobody's really bulletproof  
And no matter how tall you stand  
Sometimes it wears you down  
You're stuck in a lonely place  
Still dreamin' 'bout a great escape  
And I know there's no easy fix  
But I'm buildin' brick by brick

And I watch you carry the weight  
Of your own unforgiven mistakes  
You keep tellin' yourself it's okay  
But it's breakin' you down  
And you got nothin' left to lose  
And I know 'cause I been there too  
So I made a space just for you

Come into my garden  
'Round the flowers, 'round the flowers for us  
Into my garden  
Paint the colours and remember you are loved

I know that it's hard to lose  
Skin thicker but you still get bruised  
And you're tryin' to be someone else  
Don't recognise yourself  
I know 'cause I been the same  
So bottled up, I felt insane  
And I never had a place to go  
Until I held you close

And I watch you carry the weight  
Of your own unforgiven mistakes  
You keep tellin' yourself it's okay  
But it's breakin' you down  
And you got nothin' left to lose  
And I know 'cause I been there too  
So I made a space just for you

Come into my garden  
'Round the flowers, 'round the flowers for us  
Into my garden  
Paint the colours and remember you are loved

My garden, my garden  
My garden, my garden  
My garden, my garden  
My garden, my garden

Come into my garden

'Round the flowers, 'round the flowers for us  
Into my garden  
Paint the colours and remember you are loved
