

Get You Back

Florrie

If I could go back by myself
Maybe you would be with, with someone else
And If I could bring back all we had
Maybe then it wouldn't feel so bad

And we built it brick by brick
In our castle made for two
Painted pictures on the bedroom wall
You said we'd make it through
Now you're acting kind of strange
And I think I've seen the truth
Cos I know the only thing you ever cared about was you

Got your hands around my waist
Got my lipstick mark on your face
And I'm waiting for the fall
But you're not there

If I could go back by myself
Maybe you would be with, with someone else
And If I could bring back all we had
Maybe then it wouldn't feel so bad

And we build it brick by brick
With your broken web of lies
But I've heard 'em all before
And you're not fooling me this time

Think I'm acting kind of strange
Well I'm done with this joy ride
And there's nothing you could ever do
To make me change my mind

Got your hands around my waist
Got my lipstick mark on your face
And I'm waiting for the fall
But you're not there

If I could go back by myself
Maybe you would be with, with someone else
And If I could bring back all we had
Maybe then it wouldn't feel so bad

I won't stop 'til I get you back
I won't stop 'til I get you back
I won't stop 'til I get you back
I get you back, I'm gonna get you back

I won't stop 'til I get you back
I won't stop 'til I get you back
I won't stop 'til I get you back, I'm gonna get you back

When I'm finished with you
There won't be any place left to hide
And I'll see to that
And I'll see to that

I won't stop 'til I get you back
I won't stop 'til I get you back
I won't stop 'til I get you back
I get you back, I'm gonna get you back

I won't stop 'til I get you back
I won't stop 'til I get you back
I won't stop 'til I get you back, I'm gonna get you back
