

Hell Or High Water

Florrie

False stars, tiptoeing
We cover it up so well
Lost words, slow motion
Keep trying to fool ourselves and

I still remember the silence after
You said that you couldn't stay
But I keep looking for broken treasure
Wondering if it can be saved

If it's hell or high water, then here we go
We never try then we'll never know
If it's hell or high water, we'll make a change
Two different minds couldn't be the same

And all the hours we spent overthinking
Convincing ourselves there was no way out, no
I see you waiting, I fall back to you
But it's so cruel and it pulls me down, oh

I still remember the silence after
You said that you couldn't stay
But I keep looking for broken treasure
Wondering if it can be saved

If it's hell or high water, then here we go
We never try then we'll never know
If it's hell or high water, we'll make a change
Two different minds couldn't be the same
If it's hell or high water, then here we go
We never try then we'll never know
If it's hell or high water, we'll make a change
Two different minds couldn't be the same
