

Jealous

Florrie

Don't sweat the small stuff, and beat yourself up over nothing
Don't you get caught up, I know sometimes you miss me calling
When you get lonely, I can't be the hand you hold
That's what you told me, that's what you told me

We used to laugh 'til our lungs hurt
We used to kiss 'til our lips burned
And now you fall in love with her
We used to put the wrongs to right
We'd always make it out alive
And now you're someone else's life

Sometimes I'm jealous, cause I'm not over us
And I should know better, but I forget when I see you with her
And I know you've fallen, I just wish I'd had a warning
Forever, wasn't meant, wasn't meant for us

It's no use pretending, that we were perfect from the start
I know you meant it, when you said you said you'd never break m
y heart
You used to hold me, like you were scared of letting go
That's what you told me, that's what you told me

We used to laugh 'til our lungs hurt
We used to kiss 'til our lips burned
And now you fall in love with her
We used to put the wrongs to right
We'd always make it out alive
And now you're someone else's life

Sometimes I'm jealous, cause I'm not over us
And I should know better, but I forget when I see you with her
And I know you've fallen, I just wish I'd had a warning
Forever, wasn't meant, wasn't meant for us
