

Panic Attack

Florrie

Give me more...
Give me more...
Give me more...
Give me more...
Give me more...

Hit that panic attack
Jump, jump the track
Boy you better get back
On the floor, floor, floor

Push my panic attack
Keep hitting me back
Boy can you handle that
Give me more, more, more

Give me more...

You're looking for trouble
I'm watching you make no mistake
She's bursting your bubble
Why can't we just pretend for a day?

A fatal obsession
She's watching every move you make
It's out of the question
But know I'm only a phone call away

Hit that panic attack
Jump, jump the track
Boy you better get back
On the floor, floor, floor

Push my panic attack
Keep hitting me back
Boy can you handle that
Give me more, more, more

Give me more...

Hey did it, what?
I did it, what, what?
Hey did it, what, what?
I did it, what, what?
I did it
Hey did it, what?
I did it, I did it, I did it, what, what?
Hey did it, what?
I did it, what, what?
I did it, I did it, what, what?

Give me more...
Give me more...

You're stuck in her bubble
This mind control's in overload
So make mine a double

And hold on tight I can't let you go

This game that you're playing
Tonight I've heard it all before
You see what I'm saying
Always looking for something more

Hit that panic attack
Jump, jump the track
Boy you better get back
On the floor, floor, floor

Push my panic attack
Keep hitting me back
Boy can you handle that
Give me more, more, more

Hit that panic attack
Jump, jump the track
Boy you better get back
On the floor, floor, floor

Push my panic attack
Keep hitting me back
Boy can you handle that
Give me more, more, more

Give me more...

Hey did it, what?
I did it, what, what?
Hey did it, what, what?
I did it, what, what?
I did it
Hey did it, what?
I did it, I did it, I did it, what, what?
Hey did it, what?
I did it, what, what?
I did it, I did it, what, what?

Hey did it, what?
I did it, what, what?
Hey did it, what, what?
I did it, what, what?
I did it
Hey did it, what?
I did it, I did it, I did it, what, what?
Hey did it, what?
I did it, what, what?
I did it, I did it, what, what?

Give me more...
Give me more...
Give me more...

Boy you gotta cut the chase
Would you like me to explain it?
I need a little time to waste
You've got your price so let me name it

You're giving me a warning light
Only one mistake you're making
So have a little fun tonight

And I'm all yours boy for the taking, taking, taking,...

Give me more...

Hey did it, what?
I did it, what, what?
Hey did it, what, what?
I did it, what, what?
I did it
Hey did it, what?
I did it, I did it, I did it, what, what?
Hey did it, what?
I did it, what, what?
I did it, I did it, what, what?

Hey did it, what?
I did it, what, what?
Hey did it, what, what?
I did it, what, what?
I did it
Hey did it, what?
I did it, I did it, I did it, what, what?
Hey did it, what?
I did it, what, what?
I did it, I did it, what, what?

Give me more...

Give me more...
