

# Speed of Light

Florrie

Uh yeah ch-check it out  
Uh yeah ch-check it out  
Ch-check it out  
Ch-check it out

And I keep all the pieces of my heart in a little box  
Cos I know what you're looking for  
And boy you never know what you might find with a little luck  
And I hope that you find it all

Want every little bit that you can buy  
Whoa whoa whoa  
But I give you a kiss for free  
Whoa whoa whoa  
But whatever you say don't say goodbye  
Whoa whoa whoa  
Cos I want you to stay with me  
Whoa whoa whoa

We go  
Speed of light, speed of light  
And I know  
I'm alright cos I will guide you home  
Speed of light, speed of light  
You know  
You're alright, you're alright

And I'm falling...  
Deep deeper and down, deep deeper and down  
Deep deeper and down, deep deeper and  
Deep deeper and down, deep deeper and down  
Deep deeper and down

I see the city lights  
So bright it's a miracle  
You're here with me tonight  
And I'll keep chasing, no escaping

I see the city lights  
So bright it's a miracle  
You're here with me tonight  
And I'll keep chasing, no escaping

Want every little bit that you can buy  
Oh-whoa  
But I give you a kiss for free  
Oh-whoa  
But whatever you say don't say goodbye  
Oh-whoa  
Cos I want you to stay with me  
Oh-whoa

We go  
speed of light, speed of light  
And I know  
I'm alright cos I will guide you home  
Speed of light, speed of light

You know  
You're alright, you're alright

And I'm falling...  
Deep deeper and down, deep deeper and down  
Deep deeper and down, deep deeper and  
Deep deeper and down, deep deeper and down  
Deep deeper and down, deep deeper and down  
Deep deeper and down, deep deeper and  
Deep deeper and down, deep deeper and down  
Deep deeper and down

We go  
speed of light, speed of light  
And I know  
I'm alright cos I will guide you home  
Speed of light, speed of light  
You know  
You're alright, you're alright

We go  
speed of light, speed of light  
And I know  
I'm alright cos I will guide you home  
Speed of light, speed of light  
You know  
You're alright, you're alright

Ch-check it out
